

PATIOS AND DECKS

AS TOUGH AS THE ROOF

Don't Forget about the Deck

Decks and patios require attention.

- They are exposed to the exact same weather as the roof AND they receive a lot more foot traffic.
- Decks and patios should be inspected at least once per year as part of the roof assessment.
- Drainage and sloping need to be monitored.
- Proper waterproofing protects the whole building

Deck and Patio Repair

Design Roofing can repair any kind of deck.

- Re-sloping
- Drainage and downpipe repairs
- Repairs to flashing
- Membrane repairs
- Rebuilds and new additions
