Low Replacement Fund?

Stratas and Commercial Buildings may benefit from Roof Replacement Financing if:

- There is not have an adequate reserve fund to cover the cost of a necessary roof replacement.
- The costs associated with keeping the roof maintained are higher than it would be to replace the roof.
- The value of the building is decreasing.

Design Roofing offers roof replacement financing for stratas and commercial buildings in the Lower Mainland.

Eliminate Costly Roof Repairs

Benefits of roof replacement financing include:

- You have the ability to schedule and reduce inconvenience to occupants.
- Peace of mind knowing the replaced roof is adequately protecting the building structure and contents.
- Minimizes risk of litigation due to losses associated with roof issues.
- Minimizes costs associated with mould damage, which insurance companies do not typically cover.
- Increases the value of the building.
